MEDIA RELEASE

Path provides missing link for cyclists

Bayswater District MP Heidi Victoria has announced that a re-elected Napthine Government will spend \$100,000 to improve the network of bike paths in Wantirna.

Ms Victoria said the funding would essentially provide the 'missing link' in a bicycle path which stretches from EastLink bridge to 105 Mountain Highway.

"This new section of bike path will ensure cyclists and families in Bayswater district will have a safe and stable passage to ride on.

"It also connects to an existing network of bike paths which ensures that keen cyclists can travel right around the Bayswater District."

Ms Victoria said the Napthine Government was committed to providing means for healthy lifestyles.

"A bicycle path from EastLink bridge to 105 Mountain Highway would provide a missing link to a network of bike paths and meet up with existing paths," Ms Victoria said.
