Safe passage for Bayswater District pedestrians

A re-elected Napthine Government will install traffic lights at the intersection of Mountain Highway and Beresford Road in Boronia to improve safety for pedestrians and ease traffic congestion.

Bayswater District MP Heidi Victoria said a signalised pedestrian crossing would replace the flagged school crossing at the intersection.

“A signalised pedestrian crossing will ensure the safety of pedestrians, particularly children walking to and from school, at all times” said Ms Victoria.

“Safety for our school children is paramount and this signalisation of the intersection will ensure families can cross safely and securely during morning and afternoon peak school times.”

Ms Victoria said the Napthine Government was committed to ensuring the safety of motorists and pedestrians.
