### MEDIA RELEASE

## Arrabri Community House nursery given a helping hand

Bayswater District MP Heidi Victoria said a \$7758 grant for the nursery at Arrabri Community House in Bayswater North will help increase the productivity at the site and enable its use by more groups in the community.

Ms Victoria said Arrabri was one of two successful organisations in Bayswater District to receive funding as part of the Victorian Coalition Government's Local Landscape Enhancement Grants program.

"The Arrabri Community House plant nursery is a fabulous tool for many of the local groups which frequent the community house," Ms Victoria said.

"This grant will enable Arrabri Community House to further enhance the nursery site and in turn encourage the community to learn more sustainable food practices."

Marlborough Primary School in Heathmont was the recipient of \$19526 to encourage environmental knowledge and access for children through sustainable habitat development and enhancement.

Ms Victoria said the local landscape enhancement grants enabled community groups to improve sites and assets that further protect and support the environment.

"These local projects deliver on-ground measures that will support our local community and I look forward to seeing these projects deliver long-term benefits for our community," Ms Victoria said.

Minister for Environment and Climate Change Ryan Smith said the announcements for Bayswater District were part of the Naphthine Government's \$1.5 million Local Landscape Enhancement program.

"The Local Landscape Enhancement program is another example of our commitment to strong partnerships between government, community and environmental groups to deliver the best local environmental outcomes," Mr Smith said.

"By building stronger partnerships, the Coalition Government is protecting and enhancing Victoria's environment and building stronger communities."
