MEDIA RELEASE

Stud Road duplication complete ahead of schedule

Bayswater District MP Heidi Victoria was delighted to announce today that the long-awaited duplication of Stud Road between Mountain Highway and Boronia Road is complete, within budget and ahead of schedule.

Ms Victoria was on site at the intersection of Stud Road and Phyllis Street in Bayswater to celebrate the finalisation of works on the \$12.7 million project.

Ms Victoria said the project was one that local residents and traders had asked her to champion for on their behalf and she was pleased the Napthine Coalition Government had delivered it.

“This road is heavily used by private and commercial vehicles and the level of usage has put stress on the infrastructure,” Ms Victoria said.

“The widening and upgrading of this section of Stud Road has provided a safer passage for the thousands of motorists who use this stretch of road daily and has improved traffic congestion.”

Ms Victoria said the project had created a divided road with two lanes in each direction, a signalised pedestrian crossing between Leonard Street and Phyllis Street, designated right turn lanes, U-turn opportunities at various intervals, and an upgraded pedestrian and bicycle path.”

“This project will benefit all road users, reduce congestion and make it safer for pedestrians and families to access nearby shopping and education facilities,” Ms Victoria said.
